

2016 FAN ACTIVITY ACHIEVEMENT (FAAn) AWARDS

Complete results for voting on fanzine activity in 2015

Voters could record up to five votes in each of eight categories; they did not need to vote in all categories.

5 points were awarded for each first-place vote, 4 for each second-place vote, and so on. The number of votes awarded in each place are set out in the 'profile' column.

Tied scores are ordered by considering the numbers of votes awarded in each place, and then alphabetically.

The Number One Fan Face (see next page) was not voted on separately. Rankings were determined by summing each fan's score in the other categories.

In the case of publications, websites, or covers which were produced jointly, points gained in each vote were split equally between the relevant fans.

Brief but British apologies to anyone whose name appears here in a form that isn't their preferred version for this type of listing (whether too formal, too informal, or just wrong). Some fans use different variants of their names within a single publication, but that doesn't mean I'll have picked the right one...
